

Hybrid bass and rave pressure from Miami.

Formerly SAP. Same sound, sharper signal.

ARTIST BIO

Erosyn is Connor's rebranded underground electronic producer/DJ project. The music stays rooted in experimental bass, dubstep, DnB, UK grime, psytrance, electro, hardstyle, and classic rave, now sharpened into a darker visual system.

SOUND

Corrupted low-end, grime pressure, rave damage, distorted club rhythms, red signal energy, and warehouse system intensity.

LIVE IDENTITY

Built for late rooms, heavy systems, club flyers, warehouse visuals, DJ intros, and high-pressure hybrid bass sets.

BOOKING COPY

Erosyn delivers underground electronic sets that move between bass pressure, rave tempo shifts, grime aggression, and classic club energy.
